Volume 59 Issue 1

Welcome to our Club!

We have historic roots. Not many automobile bands can boast the years and accomplishments of Mercedes-Benz. Not just on Germany – or the United States – but on Long Island and in some cases right in our own back yard. When I first joined over six years ago, I researched the M-B brand and stumbled upon the vast history of motor sports on Long Island. How many of us ride the major roads on Long Island and think of the early days of this stretch of land. Reminders of our past are posted on historical signs denoting revolutionary encampments and early buildings where patriots dined and slept. Most fascinating to me was the relationship of the Vanderbilt Motor Parkway and Mercedes-Benz cars. The parkway was the first roadway in the United States built to test the speed of early car racing enthusiasts. Participants came the world over to test metal and motor on winding roads through towns and past structures still standing to this day. Look up the web page www.vanderbiltcupraces.com for an exceptional visual and textual history of early racing on Long Island.
